Summary

This is a gorgeous compact escape, where you will be staying in boutique accommodation and looked after privately.

Valencia has become a popular tourist destination in recent years, in part due to the F1 races and the America's Cup sailing events that were held here in town some years ago. However, Valencia also has a lot to offer in terms of modern architecture (Calatrava's City of Arts and Science), historic buildings, beach, mountains, gastronomy (the famous paella!) and wine.

After breakfast we will go on a walking tour of the old city, seeing Valencia's historic highlights, like the cathedral, the Silk Exchange (15th century), and the Mercado Central, Europe's largest fresh produce market and a beautiful Modernist style building of the early 20th century.

We end our walk at a small cooking school where you will be able to assist in the preparation of your own lunch. Learn to make the famous Valencian paella! With starters, dessert and drinks included.

Afternoon visit to the Lladró factory (famous Valencian handmade porcelain figurines (<http://www.lladro.com/>)).

Evening: tapas dinner followed by live Flamenco show.

Day Three The Modern City

Today we go by bike through the old (dry) riverbed, now the biggest city park of Spain, to see the modern, futuristic part of Valencia, the "City of Arts and Science", designed by the famous (and controversial) Valencian architect Calatrava – a MUST SEE in Valencia.

We continue to the port area, to see where the America's Cup and F1 GP races were held, and then on to the beach.

We'll have a drink at the beach, and a bus will pick us up (Bikes will be picked up from the beach by bike shop) to go to the Albufera lake, 20 kms south of the city, for lunch and then a boat trip on the lake. The Albufera lake and the surrounding rice fields and dunes forest is a top location for birdwatching (nature reserve).

Dinner will be at one of Valencia's leading Michelin starred restaurants.
